b. USIB-M-504, 11 April 1968, item 3

1. The enclosed memorandum on this subject from the Chairman of the NIS Committee, circulated herewith for Board consideration, responds to Board action in reference a. which noted that the NIS Committee would submit an annual production schedule to the USIB.

2. The enclosed schedule reflects the production priorities established in the NIS Coverage Plan as approved by USIB in item 3. a. of reference a. Mr. Brammell's memorandum points out that manpower and budgeting restrictions in DIA and CIA continue to affect NIS production planning. Except for Manufacturing and Construction and Electric Power, all detailed economic sections have been discontinued. Production of General Surveys for FY 1971 continues at 30; however, 93 detailed sections are scheduled, representing a 31% reduction from that for 1970.
